**Subject: ACAS Version 7.1 requirements in EU airspace**

Dear Mr Carr,

We would like to draw your attention to the upcoming entry into force of the last milestone of the EU Commission Regulation No 1332/2011 concerning the ACAS version 7.1 requirements for flights in the EU Airspace.

As of **01 December 2015**, all aeroplanes with a MCTOM in excess of 5700 kgs or authorised to carry more than 19 passengers need to be equipped with ACAS II v. 7.1 in order to operate into EU airspace<sup>1</sup>.

Could we please ask you to relay once more this information to all your members in order to ensure a swift transition and avoid disruption in their respective operations to, from and into the EU Airspace?

Many thanks in advance for your cooperation.

Sincerely,

Claudio Trevisan
